INSTRUCTIONS FOR THE ANALYST:

Please analyse each timeframe systematically:
1. Trend state (Bullish / Bearish / Range / Transition)
2. Market structure (HH/HL, LH/LL, MSS/BOS)
3. Key demand/supply zones and high-impact levels
4. Risk notes (choppy, extended, late-trend, news-sensitive)

Then cross-reference timeframes for alignment (HTF ↔ LTF).

For each trade idea requested above, provide:
  • Entry zone (not a single price)
  • Invalidation level
  • Logical target(s)
  • "Do not trade if…" conditions

Always include what would prove the idea wrong.
